Call for exhibitors

The Electronics System-Integration Technology Conference (ESTC) is the premier international event in the field of electronics packaging and system integration. The conference is organized every two years in Europe and is supported by IEEE-EPS in association with IMAPS-Europe.

This international event brings together both academics and industry leaders to present and discuss the state-of-the-art as well as the future trends in electronics packaging and integration technologies. ESTC offers excellent opportunities for potential partners to meet and discuss about emerging technologies, solutions, products and services.

ESTC 2020 will take place from 15th to 18th September 2020 in Vestfold, Norway, where the “Norwegian Centre of Expertise” in Micro- and Nanotechnologies is established. The industry cluster in Vestfold, together with the University of South-Eastern Norway (USN), represents a major portion of Norway’s activities in the field. High-end devices for aerospace, medical, maritime and industrial applications are quality products from the region, with a strong focus on packaging, system integration and reliability.

ATTENDANTS
ESTC 2020 provides you a unique opportunity to exhibit your products and/or services to around 300 engineers and managers from all areas of the microelectronics, microsystems and system integration industry. To meet the audience’s interests best, the exhibition will be arranged thematically, such as materials and processes for semiconductor packaging, assembly and interconnect technologies, test and characterization equipment, simulation and software tools, wafer post-processing services and market research.

Practical information

VENUE
ESTC 2020 will be arranged in the Quality Hotel Tønsberg. The hotel is located at the beautiful Tønsberg Pier in the heart of Vestfold. Vestfold, Norway, welcomes you with its proud maritime traditions, as the centre of Viking cultural heritage, and with a pleasant climate. Communication to Vestfold is easy, with direct train from Oslo Airport (OSL), as well as the local airport (Sandefjord Torp – TRF) with direct connections to several major European destinations. More information about the Quality Hotel Tønsberg: www.nordicchoicehotels.com/conferences-meetings/norway/tonsberg/quality-hotel-tonsberg/.

EXHIBITION AREA & SCHEDULE
The exhibition area is a central place for coffee breaks as well as mingling for all conference attendees. The area is intimately connected with the conference halls/rooms as well as with the area for lunch breaks.

ESTC 2020 is a four-day event, where the first half of day one is dedicated to technical short courses. Exhibition area can be accessed during this period for setting up booths. The exhibition opens at noon and carries on for the next two days in parallel with technical sessions and keynotes. On the last day, participants and exhibitors are invited to visit microsystems/electronics companies in Vestfold, including the Research Park at the University of South-Eastern Norway. The exhibition schedule of the four days is indicated as follows.

EXHIBITION BOOTHS
Booths are available with a standard area of 3 x 1 m² at a rate of 2 000 € (+ 25% VAT). The rate for an exhibition booth includes full access to technical sessions and keynotes for two persons of company staff. No accommodation and meals are included. However, special conference rate for accommodation and meals are available when booking via the ESTC organizer.

Booths are arranged with:
- Partition walls & power to each booth
- Furniture: one rectangular or square table, chairs
- Extra furniture can be ordered.

Booths beyond the standard area (either smaller or larger) may be available. Please contact the exhibition chair. Example: areas suitable for a roll up and a small table at a rate of 1 200 € (+ 25% VAT)

For any queries, please contact the exhibition co-chairs:
Ole-Henrik Gusland or Hoang-Vu Nguyen at exhibition@estc-conference.net

General Chair: Knut E. Aasmundtveit
University of South-Eastern Norway

Executive Chair: Kristin Imenes
University of South-Eastern Norway

Technical Program Chair: Paul M. Svasta
